

Please see the **FAQ's** below for clarification on enrollment for summer camp!

- Can I register at any time for more weeks?
 - Yes, we would encourage you to register a week in advance of the week that you would like to attend. This allows us to get the required emergency forms for your child's file as well as making sure that they are on the roster for that week of camp.
 - Our Camps do have max capacities, so if you are on a waitlist for any week, you cannot join the program that week(s). You can call our office to get more information. Once a spot opens up you will receive an email to enroll your child.

- The login says it cannot verify that I am over 13 years old...what do I do?
 - You'll have to call our Registration Department at 913.831.3359. There have been a couple accounts that need this verified, and we can edit your account setting with your actual birthday to correct this.

- Is anything due at the time of registration?
 - Yes, the week(s) fee will be due today when your register.

- Can I change my camp option later in the summer?
 - All of our fees are non-refundable. We can look at transferring to an open week but there will be a 15.00 transfer fee for the switch.

- What if I filled out forms last year?
 - You will need to complete new forms for this summer. After you register in your camp, an email invitation will be sent to you via **ePACT** asking you to complete *Child File Forms* that are required by the Kansas Department of Health and Environment. These forms are required to be completed each year to make sure all important information is up to date. By using this new software, we can insure that your child's camp forms will be at the camp each week that you are enrolled for. These must be done before your child can attend!

- How do I attached the PDF Forms to my ePACT account?
 - After completing your information on the KDHE PDF Forms, you must save them to your desktop first! Then, you can upload them into your ePact account as a file/attachment.
 - You have to make sure that you have completed all sections and hit submit.
